

PRODUCT SHEET

# M2-MVB

## FEATURES

- Mobile video router & DVR for (HD) IP cams
- Live streaming over 2G/3G/4G, Wifi and Ethernet
- Superior adaptive bandwidth
- GPS, Audio and alarm triggers
- Back-end solution for VMS integration
- Remote camera management
- Highly secure end-to-end solution

## SOLUTION FOR

- In-vehicle cameras
- Rapid deployment cameras
- High value transport
- Remote area security
- Mobile CCTV
- Asset security

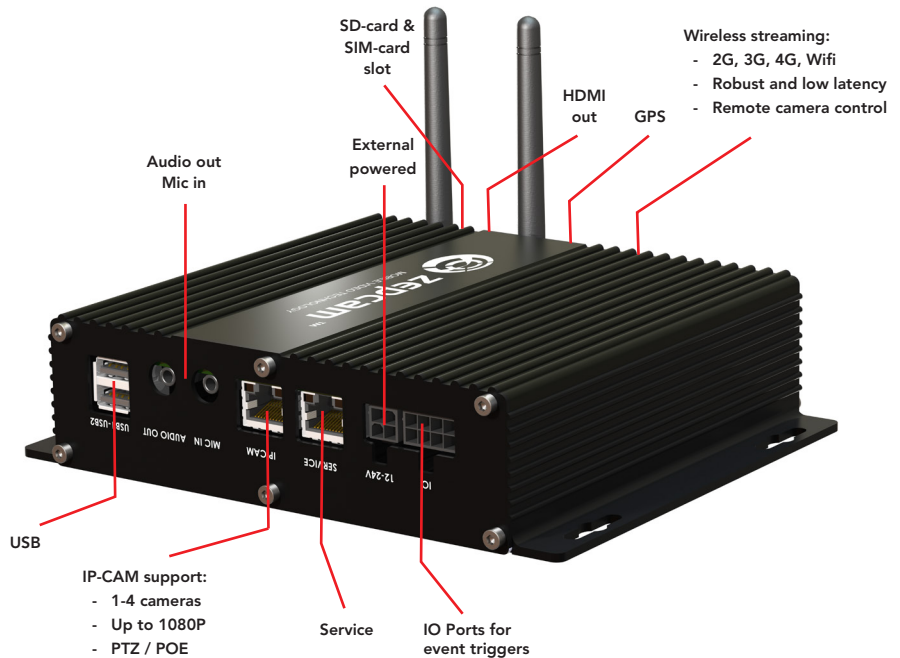

## INDUSTRIES

- Fleet management
- Public safety
- Road safety
- Security
- Logistics

# MOBILE VIDEO BOX

## 3G/4G live streaming of IP cameras

The Zepcam Mobile Video Box (M2MVB) is a dedicated video streaming device for IP cameras. It is a plug & play solution for cameras to stream over 2G/ 3G/ 4G, Wifi or ethernet. Video streams can be viewed real time in the Zepcam Live Viewer or an integrated 3rd party video management system (VMS).

Besides superior video streaming, the Zepcam Mobile Video Box can record video streams, audio and GPS. Streaming and recording can be started manually, remotely or event triggered (e.g. movement detection, panic button).

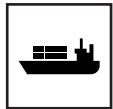

## Zepcam Mobile Video: easy, flexible & reliable

The M2-MVB is a robust and plug & play solution to stream video and GPS position when fixed data lines are not available or reliable. For wireless networks with highly dynamic bandwidth fluctuations, the Zepcam video streaming technology guarantees reliable and best-in-class video streaming.

The M2-MVB is used in vehicles (emergency services, value transport, trucks) and for wireless streaming CCTV cameras (public events, remote infrastructure, construction sites, drones).

# M2-MVB

## Robust and integrated back end solution: from field device to command & control

The Zepcam Mobile Video Box HD is a complete solution including the IT back end. Live video streams can be remotely viewed and managed using the browser based Zepcam Live Viewer or an integrated 3rd party video management system. Zepcam has integrations with VMS systems like Genetec, Milestone and Cisco VSM.

The Zepcam IT back end and VMS integrations also supports live video streams from Zepcam body worn cameras. One integrated solution for any mobile video application.

## Three versions to fit budget and specs

The Zepcam Mobile Video Box HD is available in the following versions:

	M2-MVB10	M2-MVB20	M2-MVB30
Number of IP cams supported	1	2	4
Power over Ethernet	Y	Y	Y
Local storage (extendable)	32 GB	64 GB	64 GB
IO for external event triggers	N	Y	Y
PTZ support	N	Y	Y
GPS	Y	Y	Y
Maximum video streaming quality	720P	720P	1080P
Network support	2G/3G/4G/Wifi	2G/3G/4G/Wifi	2G/3G/4G/Wifi
HDMI out	N	Y	Y
Remote file retrieval*	N	Y	Y

## A compact smart box for many applications

The Zepcam Mobile Video Box HD is engineered with state of the art technology and intelligent software. This enables flexibility, broad IP camera support and smart mobile video applications.

\* Feature that is not available in the current version of the product. Will be made available with a firmware update.
