

ZEPCAM offers professional bodycam solutions that are easy to see, mount & use and produce high-quality images. Our turnkey solutions include secure storage, regulated access and an innovative video management system, which is configurable to meet the highest European Union privacy, security and quality standards. Images captured with a bodycam will stand up as evidence in court if necessary. ZEPCAM's body worn camera solutions are used by a wide range of frontline workers, including international police forces, public transportation staff fire departments, medical emergency services and industry field workers. ZEPCAM aims for more trust and less conflict in a respectful society.

More trust, less conflict in a respectful society

Protecting and supporting frontline professionals with the reliable and easy to use ZEPCAM bodycam system when it really matters. Reducing the likelihood, number and impact of frontline incidents and conflicts. Gathering indisputable evidence that will stand up in court when necessary.

Configuring and operating a bodycam system
